Notification of Asbestos Reinspection and Surveillance

Date:

To: Parents and Staff

From: Superintendent: Eric Findley

5-4-22

In compliance with the U.S. Environmental Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA) in June of 1988 we performed inspections of each of our school buildings for asbestos containing material. The inspection findings and asbestos management plans have been on file in each school administrative office since that time.

The EPA requires us to perform reinspection of the asbestos materials every 3 years. During the month of April 2022, accredited asbestos inspectors performed these reinspections. An accredited Management Planner reviewed the results of the reinspections and recommended actions we should take to safely manage each asbestos material in our buildings.

The results of the reinspection are on file in the management plan in the school's administrative office. Everyone is welcome to view these anytime during normal school hours (M-F 8:00 a.m. to 4:00 p.m.) The asbestos Program Manager, Dom Gerths, is available to answer any questions you may have about asbestos in our buildings.

All areas that contain asbestos either friable or nonfriable are monitored constantly and are checked by an accredited AHERA inspector every (6) six months to insure no deterioration of their condition. This inspection is performed to assure proper health and safety conditions for all employees and constituents of the school system.

Sincerely,

A handwritten signature in black ink, appearing to be 'Eric Findley', written over a horizontal line.
