

This year we are implementing online enrollment district wide. Please follow the instructions below.

The website location is <http://www.jasper.k12.mo.us>

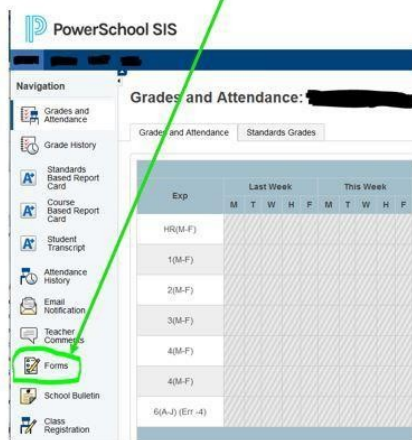

Click on the PowerSchool Parent button to access the login screen.

Enrollment must be completed on a web browser and NOT the PowerSchool App.

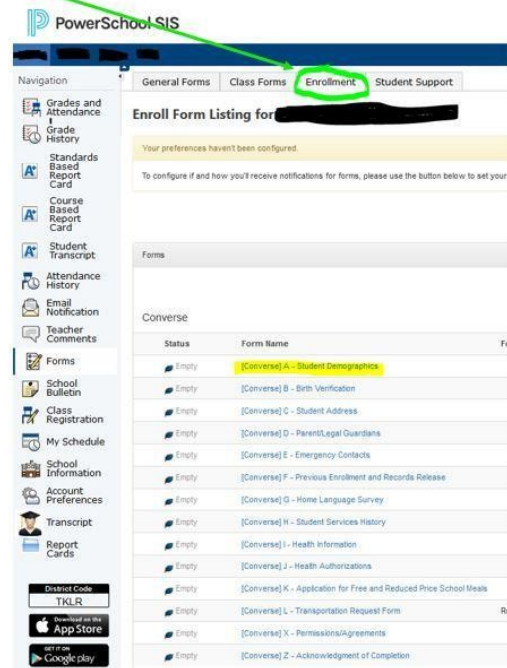

If you have created a PowerSchool Parent login ID and Password in the past, you just need to login to the Parent Portal and add your new student using the ID and Password on the other side of this letter.

These ID's are for adding a student to your account, they are not login credentials. ***If this is the first time you will be using PowerSchool Parent you will need to create a new account. There are instructions for creating the account provided just after clicking the "PowerSchool Parent" button. This account allows you to have one login for all of your students. Please keep your username and password confidential so only you can access the information.***

- 1) Once logged in to the Parent/Student portal, click on the "Forms" icon on the left menu to access the Online Registration Forms.

- 2) Then click on the "Enrollments" tab to see the list of forms required to complete.

- 3) Please click on the first form and populate you it with your student's information. Click on "Submit" when you have completed the form and the application will automatically launch the next form. Please complete and submit all forms so that we can ensure your student's data is correct and up to date for the 2020-2021 School Year.

Please call the office if you have any questions.
